CAGE BIRD SECTION

This Section is organised and staged by the Dagenham Cage Bird Society. The colourful display of many varieties of Budgerigars and Canaries together with the British and Foreign birds of exotic beauty shows what a pleasing addition this hobby can make to any home or garden.

SPECIAL

On show in the Aviary, is one of the largest collections of the new and rare coloured Budgerigars ever shown to the general public. All of these birds have been bred locally by one of our members. This exhibit alone will fully justify your visit to the show, so make this section your first visit.

The stewards and officials on duty or any member of the Society will be only too pleased to offer advice on any aspect of bird-keeping.
